### Important events: **LAUNCH THE SPELLBOX LITE APP**

The management of CHROMOSOME DYNAMICS S.A. (hereinafter referred to as the "Company") informs the market about the launch of the SPELLBOX LITE APP, a mobile application for diagnosing plant diseases, pests, deficiencies and phytotoxicity.

The application was designed with the aim of raising farmers' interest in CHROMOSOME DYNAMICS products and solutions and is available for free in the Play Store (Android) and Apple Store (iOS).

Also, by providing a free version of SPELLBOX, CHROMOSOME DYNAMICS will collect large volumes of data (images/context) that will directly contribute to the improvement of the digital tools that the company has developed or is developing.

SpellBOX comes to the aid of farming enthusiasts and large farmers by exposing three benefit plans designed to cover all user needs, depending on the degree of activity carried out. Acting as a modular platform, SpellBOX connects multiple IoT devices and brings together all the data needed to apply the best tactics for precision farming.

SpellBOX Lite is the standard version of a complex precision tool, with users benefiting from free accurate results and specialist advice to resolve any impediment. The second plan made available by the high-tech company – SpellBOX WS (Weather&Satellites) – offers the possibility of accessing an overview of crops and soil through 18 precision satellite indices (multispectral analyzer), users benefiting, in addition, by an IoT device to monitor favorable conditions for irrigation.

SpellBOX Lite app can be downloaded for free [here](#).
